

Byzantine Bracelet

Instructions by Mary Soucy @
www.beadmeastory.com

Supplies:

10mm Orings 16 to 22 phoenix turquoise
10mm Orings 16 to 22 princess & pea
green
(single color bracelet use 32 to 44 orings)
16g 1/4" Jump Rings 68 to 88

Supplies to make with 7.25mm orings:

7.25mm Orings 48 to 56
18g 3/16" Jump Rings 96 to 112

1. Open 1 jump ring. Pick up 2 orings on this jump ring. Close jump ring.

2. Open second jump ring and pass through the same 2 orings as step one. Close jump ring.

3. Open one jump ring. Pass jump ring through the first jump ring in the previous row, pick up 2 orings and then pass the jump ring through the second jump ring of the first row. Close jump ring.

*when you close the jump ring you will do so on the side of the piece, you are not working "on top" at this point.

4. Open one jump ring. Repeat step 3 but on the other side of the piece. Rings are held stationary at this point so with your open jump ring you pass through a jump ring, through the 2 pea green orings and through another jump ring from previous row. Close jump ring on opposite side as in step 3.

5. Open 1 jump ring. Pass through 2 orings from previous step. Close jump ring. Open second jump ring, pass through 2 orings from previous step again and close jump ring.

6. Open one jump ring. Pass jump ring through the first jump ring in the previous row, pick up 2 orings and then pass the jump ring through the second jump ring of the first row. Close jump ring.
*when you close the jump ring you will do so on the side of the piece, you are not working “on top” at this point.

7. Open one jump ring. Repeat step 6 but on the other side of the piece. Rings are held stationary at this point so with your open jump ring you pass through a jump ring, through the 2 turquoise orings and through another jump ring from previous row. Close jump ring on opposite side as in step 6.

8. Continue pattern of:
Add 2 jump rings
Add jump ring pass through previous jump ring, pick up 2 orings, pass through 2nd previous jump ring and close jump ring on side of piece.
Add jump ring in same pattern on other side of piece.
Finish on opposite color than you began with when you are at desired length.

9. To finish, add 2 jump rings to the 2 starting turquoise orings.

10. Open jump ring, pass through one of the jump rings attached to the turquoise and then instead of adding 2 orings, pass through the 2 pea green orings at end of piece. Pass through other jump ring attached to the turquoise oring (on side of piece) and close the jump ring.

11. Open another jump ring and finish the pattern just created on the other side of the piece so that the final jump rings finish the pattern and connect the beginning turquoise orings to the final pea green orings in the same pattern as the rest of the piece.
